CAREER OBJECTIVE

B.E.IoT&Computer Science engineer passionate about software development and intelligent applications .Seeking to apply programming expertise and problem-solving skills to impactful real-world solutions.

EDUCATION

B.E. CS with IoT — KLN College of Engineering (Anna University), 2023–2027
HSC — Sivakasi Nadar Matric. Hr. Sec. School, 75%, 2021–2023

TECHNICAL SKILLS

Languages: C, Python, Java
Web Tech: HTML5, CSS3, JavaScript
Database: MySQL
IoT / Embedded: Sensors, Embedded Systems, Networking
Tools: Git, VS Code
Data Visualization: Tableau, Power BI

PROJECTS

Rail Guardian — IoT Safety System

- Monitors railway tracks in real time using ultrasonic & vibration sensors.
- Triggers instant microcontroller alerts with a live dashboard.

PhishGuard — Anti-Phishing Web App

- Browser-based tool to detect and flag phishing threats.
- Pattern-matching logic in JavaScript with user-friendly UI.

Vanavani — Forest Monitoring Platform

- Smart forest-monitoring system for remote data collection.
- Real-time alerts for wildlife & ranger safety.

CERTIFICATIONS

Embedded Systems & IoT | Data Visualization | Front-End Development

STRENGTHS

Quick Learner | Consistent & Disciplined | Adaptable | Patient Under Pressure

HOBBIES & INTERESTS

Singing | Exploring Emerging Tech

DECLARATION

I hereby declare that all information furnished is true and correct to the best of my knowledge.
